SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF DECEMBER 1906.

In the first week of the month skies were cloudy on the Orissa coast, and on the sixth of the month cloud had extended over the greater part of the reporting area. Temperature was approximately normal, except on the 2nd, 3rd and 4th, when it was higher than usual in parts of Eastern Bengal. On the eighth of the month the skies were clear or very lightly clouded, and temperature became normal and remained so until the 13th, when moderate cloud became fairly general and caused a considerable increase in night temperature. During this week the only fall of rain reported was ·20 inch, which occurred at False Point on the 13th. During the third week of the month skies remained more or less clouded, but no rain was recorded at any of the reporting stations. Temperature was persistently above normal except in Eastern Bengal and Assam, the excess being shown chiefly in night temperature which on several occasions was from 3° to 9° higher than usual. In the fourth week of the month no rain was reported from any of the observing stations. The distribution of temperature was irregular; temperature was approximately normal throughout the week in the eastern half of the division; but was high in Chota Nagpur and Orissa until the 24th when a cool wave from the west reached the former area and extended over Orissa and Bihar during the next two days.

In the Bay the weather during the month was characterised by a series of small depressions, which formed in the south and proceeded on the usual westerly track to the coast of Ceylon or the Coromandel coast. The first of these appeared definitely on the fifth, although it gave slight indications of its existence on the fourth. It gave rise to rather stormy weather in the south of the Bay and passed inland on the sixth. The second appeared on the 12th of the month and, judging from the logs of ships in its neighbourhood, must have been accompanied by very strong winds and rough seas. It appears to have filled up about the 15th. On the eighteenth a depression appeared off the coast near Madras, but passed inland without disturbing the weather materially there: it gave, however, moderate to heavy rain inland. A fourth depression appeared in the same region on the 25th and passed inland between Cuddalore and Madras on the 27th. These disturbances were not of a very serious character, and were associated as usual with temporary advances of the retreating monsoon. Their formation was heralded in every case by the change in wind direction at Port Blair to the south-east.

Summary of Temperature.—Weather was warmer than usual over the whole reporting area excepting Assam, where temperature was about normal. The highest temperature recorded during the month was 88·3° at Midnapore and the lowest 38° at Palamau.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of December 1906:—

Summary of Rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that Department. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph and Thermograph and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

No. 585 L.R.—The 23rd January, 1907.—The following Rules are published for general information.

Rules for the Suspension and Remission of Land-revenue on account of Agricultural Calamities.

The Resolution of the Government of India, No. 3—99-2, dated the 25th March, 1905, lays down the principles to be followed in granting suspension and remission of land-revenue during agricultural calamities. The main object in view is to give relief to the cultivating classes when they are unable to pay their rents on account of failure of crops.

2. The following rules are based on these principles and are issued for the general guidance of Revenue Officers.

I.—ESTATES DIRECTLY MANAGED BY GOVERNMENT.

1. Agricultural calamities shall be classified as—

(*a*) "Widespread," such as famine, drought, and general failure of crops over whole estates, and over large areas, and—

(*b*) "Local" or isolated, such as are occasioned by hail, floods, locusts and the like, in which the failure of crops is not uniform and does not extend over large areas.

2. When the Collector has reason to believe that there has been or will be so great a failure of crops as to render it probable that suspension or remission of land-revenue may be necessary, he shall at once either himself proceed, or shall depute an officer of as high a rank as may be available, but not below the rank of a Kanungo, to make an inquiry into the extent of the failure in the estates affected by the calamity.

3. On receipt of the Officer's report and after such test of the report as may be possible, the Collector shall decide whether the calamity is to be treated as belonging to class (*a*) or to class (*b*), and shall proceed to determine the amount of revenue which should be recommended for suspension or remission, as the case may be.

In deciding what proportion of the land-revenue should be suspended or remitted, the Collector shall take into account the fact that in accordance with the principles laid down in the Government of India's Resolution No. 13—356-10, dated the 21st August, 1906, cesses realised with land-revenue will continue to be collected as usual; but that where an instalment of land-revenue is wholly suspended or remitted, the cess demand will be suspended and realised with the next instalment of land-revenue which is collected.

4. In the case of a widespread calamity, the inquiry under Rule 2 shall be made as promptly as possible, and, to obviate delay therein, the Collector may, in submitting his original proposal, base his report as to the degree of immediate relief necessary on the agricultural conditions of entire villages or homogeneous groups of villages.

If, after making such report, the Collector finds reason to believe that the agricultural conditions of any villages have been incorrectly reported, he may submit a modification of his original proposal accordingly.

5. In the case of a widespread calamity, relief shall, where possible, be given in the first instance in the form of suspension of land-revenue.

6. In submitting his proposals for suspension or remission the Collector shall have regard to the second sentence of Rule 3 above, and shall take into consideration the relation which the crop which has failed bears to the sum total of the crops of the year on the area affected, as well as the previous history of the tract affected.

Explanation.—If the *aghani* crop normally represents 60 per cent. of the year's crops and the *bhadoi* 20 per cent. and the *rabi* 20 per cent, and if 50 per cent of the *aghani* is lost and the *bhadoi* has been an 80 per cent. crop, and a 75 per cent. *rabi* may be anticipated, the calculation is $\left(\frac{60}{100} \times \frac{50}{100}\right) + \left(\frac{20}{100} \times \frac{80}{100}\right)$ or $\frac{30+16}{100} = 46$ per cent. for the crops already secured, and a probable $\frac{75}{100} \times \frac{20}{100}$ or 15 per cent. on account of the *rabi* expected. Such a loss of crops would not ordinarily by itself constitute a sufficient ground for recommending suspension of revenue unless the previous history of the tract is unfavourable.

7. The suspension or remission of revenue shall not ordinarily be granted except in the case of a failure which causes a loss of more than half the normal crops of the whole year. Every case shall be considered on its merits, and no relief shall be given unless it is found necessary.

8. The Collector shall, however, take into consideration the crops of the two preceding years, and where the crops of these two years have been less than half the normal or where any revenue is already under suspension, the provisions of Rule 7 may be relaxed and a special recommendation for suspension or remission may be made. Similarly, if the result of such an examination is favourable to the area, the suspension or remission may be less than the scale.

9. A scale of relief is laid down below for general adoption, which shall be taken as a maximum scale, and should not be exceeded except in special cases for which there is a full and satisfactory explanation:—

Normal outturn 100.	Degree of relief.
Forty per cent. and less than 50 per cent. of the year's normal crops	25 per cent.
Twenty-five per cent. and less than 40 per cent. of the year's normal crops	50 ,,
Less than 25 per cent. of the year's normal crops	100 ,,

10. In dealing with local calamities falling under class (*b*), in which a field-to-field inquiry shall be made of the extent of the failure, consideration shall also be given to the loss suffered by the tenant in comparison with his total income, and no relief shall necessarily be given to a tenant whose crops or whose sub-tenants' crops have been destroyed upon fields forming only a small portion of his entire tenancy.

11 It shall be the business of the Collector to make recommendations for the remission of revenue when he considers it necessary, and in doing so he shall be guided by the principles laid down in paragraph 12 of the Resolution of the Government of India, which are here reproduced:—

"As soon as it becomes clear that it will be inadvisable to collect suspended revenue or any particular portion of it, it should be remitted at once. It is most undesirable to keep supensions hanging for long over the heads of the revenue-payers; and the Government of India are of opinion that revenue which has been under suspension for three years should ordinarily be remitted as a matter of course. They are also prepared, in the case of fully assessed tracts with an outturn which is fairly constant, to accept a rule which would limit the amount of revenue under suspension at any given time to the equivalent of the revenue demand of an ordinary year. In the latter case it would not follow that when suspensions exceeded the limit, the whole amount suspended should be remitted, and, logically speaking, only the balance by which they were in excess should be so dealt with. But in the case of calamities so severe as to call for heavy suspensions, greater liberality than this will no doubt be desirable. An absolute and general rule that the amount under suspension should never exceed a year's revenue would be open to objection; since there are many areas of fertile soil, where there is no irrigation and the rainfall is uncertain in amount, and where on account of this uncertainty, the revenue is pitched so low, that in a really bumper year the people could pay very much more than the revenue assessed without the slightest inconvenience."

12. Where the damage caused to the crop is so severe that the Collector thinks that no portion of the suspended revenue should be collected afterwards, he shall at once report to the Commissioner the amount to be remitted. Where, however, he thinks that only a portion of the revenue should be remitted, he shall report to the Commissioner the percentage of revenue to be remitted. In such case the balance and, when no remission is granted, the whole of the suspended revenue shall be recovered from the tenants in such instalments as may be fixed, with the approval of the Commissioner, with reference to the character of the succeeding harvests from which it is recovered and the condition of the people at the time.

13. In every case full notice shall be given to the tenants concerned of the orders of suspension or remission, if possible, one full month before the date when the *kist* falls due and in any case before collection of the *kist* would ordinarily begin. The system of merely abstaining to collect without any declaration as to the amount to be suspended shall be discarded.

14. As a general rule, no suspended revenue shall be collected until after one fair harvest subsequent to the failure has been reaped in the affected tract.

15. The Collector shall report to the Commissioner, at least two months before the first instalment for any harvest falls due, the amount which he proposes to recover out of the suspended demand from the proceeds of such harvest, in addition to the current demand payable for such harvest

16. The grant of relief to rent-payers shall be made conditional on their giving relief to under-tenants of all degrees.

17. In granting suspension or remission no distinction shall be made between assigned and unassigned revenue

18. The Commissioner shall have power to sanction suspension of revenue for the year in which suspension is granted, reporting his proceedings to the Board of Revenue. He shall also settle the instalments for the collection of the suspended revenue. All remissions and suspensions for a longer period require the sanction of the Board.

N.B.—It is essential that if suspension is to have its full beneficial effect, the amount to be suspended should be settled, and that the decision to suspend should be communicated to those who would otherwise have to pay rent on revenue, before the day on which payment becomes due In urgent cases, therefore, the Collector is authorised to pass immediate orders, subject to the approval of higher authorities. In all cases the orders should be so published as to reach the people concerned in proper time.

19. All suspensions and remissions shall be reported by the Board for the information of Government. Special reports shall be submitted to the Board through the Commissioner showing to what extent any suspension and remission will affect the budget estimates under land-revenue for the current year, compensating additions to the revenue being noticed and taken into account.

II.—TEMPORARILY-SETTLED ESTATES.

20. In all temporarily-settled estates in which collections are made by a person responsible for the revenue to Government the above rules shall apply, but no suspension or remission shall be given unless the settlement-holder undertakes to suspend or remit a proportionate amount of the current rent payable by the cultivators. The proportion may be that of 1 to 2, or in the ratio which the total revenue of the estate bears to the total rent demand, and the Collector should state which proportion he proposes to adopt.

21. In the temporarily-settled estates, which are usually liable to only *local* calamities, field-to-field inquiry shall ordinarily be instituted In cases, however, where the estates are of great size and the calamity affects whole estates, the rules for widespread calamities shall apply.

22. In all cases of suspension under these rules subsequent collection of revenue and rent shall be made without interest.

24. In cases of suspension and remission under these rules in estates the property of, or managed by, Government the Collector shall send the necessary particulars for each estate, and shall state the period for which suspensions and remissions are sanctioned, to the Courts engaged in the trial of rent suits.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

QUESTIONS AND ANSWERS.

TECHNICAL INSTITUTIONS.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked :—

(*a*) Has the attention of the Government been drawn to the Resolution of the last Industrial Conference asking the Government to establish a properly-equipped technical institution in each Province ?

(*b*) Will the Government be pleased to say in what stage is the matter of the establishment of a Technical School on the lines of the scheme prepared by a Committee of official and non-official representatives of the Association for the Advancement of Scientific and Industrial Education of Indians under the presidency of Mr. Oldham, which was graciously promised by His Honour the Lieutenant-Governor to the people of Bengal in his last year's budget speech ?

(*c*) Will the Government be pleased to consider the advisability of making provision in the next year's budget for the carrying out of the scheme ?

(*d*) Will this Government be pleased to consider the advisability of asking the Supreme Government to make an adequate grant to Bengal for such an institution in the next year's budget ?

The Hon'ble MR. RICHARDSON replied :—

"(*a*) The attention of the Government has only now been expressly drawn to the Resolution of the last Industrial Conference to which the Hon'ble Member refers. The Resolution, which was published in the newspapers, contemplated the preparation of a memorial addressed to the Government. No memorial has as yet been received, but the subject of Industrial Education has not been overlooked.

"(*b*) As regards what His Honour the President said in winding up the Budget Debate last year, the Hon'ble Member is perhaps aware that this Province possesses a most excellent and in some respects well-equipped technical institution in the Civil Engineering College now located at Sibpur. The Committee over which Mr. Oldham presided gave up all idea of establishing a new technical institution of a general nature, the cost of which would be prohibitive, but they recommended the development of the Engineering College by the addition to it of departments dealing with various branches of technical education. This policy has been adopted by the Government and will be carried out as funds permit. Thus an artisan class in motor-driving has been or is about to be opened, and a scheme for the opening of a department of industrial chemistry and chemical technology is now under consideration. His Honour has long contemplated the removal of the Engineering College from Sibpur to a more healthy situation, and proposals have been framed to carry out this object. If these proposals receive the sanction of the higher authorities, the opportunity will be taken to contrive and design the new College and to establish it upon as broad a basis as possible, so that it will meet existing requirements in accordance with modern standards in respect both of its buildings and of the instruction imparted, and will be capable of expansion in the future to meet future needs as they arise.

"(*c*) Endeavour will be made to provide the funds required to give effect to the policy which I have indicated.

"(*d*) Inasmuch as it is not proposed to create a new institution independent of the Engineering College, the question of providing funds for such an institution does not arise. I may recall to the Hon'ble Member's recollection that the Government of India are giving financial assistance to this Government in connection with the Weaving School at Serampore."

MANUFACTURE OF SALT.

The Hon'ble BABU JOGENDRA CHANDRA GHOSE asked:—

(*a*) Will the Government be pleased to consider the advisability of publishing a statement showing the causes that led to the disappearance of the manufacture of salt in these provinces and to take steps to revive the industry so that the people of the sea-coasts of Bengal and Orissa may be able successfully to compete with Liverpool, Hamburg and Aden, from which places salt is now mostly imported?

(*b*) Is the Government aware that salt is allowed to be made in the district of Akyab in British Burma under conditions which make the price of salt very much cheaper there than in the adjoining districts of British India? Will the Government be pleased to inquire into the matter and introduce the Akyab system in Bengal?

(*c*) Having regard to the fact that it is admitted on all hands to be inequitable not to allow the poor raiyats of the sea-coasts of these Provinces to make salt for their own consumption, will the Government be graciously pleased to consider the advisability of making a rule that in cases of small manufacture of salt by raiyats for their own consumption the Magistrate should not order criminal prosecution?

The Hon'ble MR. MCINTOSH replied:—

"Salt was formerly manufactured on the sea-board of this Province both under a system of Government monopoly and under a system of licenses. Manufacture gradually ceased and was ultimately prohibited, chiefly on account of the competition of Madras salt which is made under more favourable circumstances and also on account of the competition of salt imported from other countries.

"After careful consideration in 1902 the revival of the industry in this Province was held to be impracticable. Circumstances remain the same and Government does not propose to take any steps.

"The Government is aware that manufacture of salt in Burma has not generally been controlled as in India; but it is understood that manufacture in that Province is now being restricted and concentrated.

"It is not practicable to allow manufacture of salt for domestic consumption because smuggling would certainly be practised and large preventive establishments would be required. Magistrates are enjoined to exercise discretion in prosecution of poor persons for first offences."

LANDING-STAGES ON THE RIVER HOOGHLY.

The Hon'ble BABU RADHA CHARAN PAL asked:—

(*a*) Has the attention of the Government been drawn to the correspondence on the Hooghly Landing Ghâts, which appeared in the Englishman newspaper of the 20th December, 1906?

(*b*) Is the Government aware of the great inconvenience caused to the public by the blocking of ferry ghâts on the Calcutta side of the river?

(*c*) Will the Government kindly inquire whether any landing-stage on either side of the river is to be exclusively reserved for ferry boats, or whether the same landing-stage is intended to accommodate both the proposed ferry steamers of the Port Commissioners and ferry boats?

(*d*) In the latter case does not the Government think it will cause great inconvenience to *dinghi* passengers, who will have to wait till the steamer has left the landing-stage?

(*e* Does not the Government think it will meet public requirements if separate landing-stages are provided for ferry boats and ferry steamers, and will the Government be pleased to ensure the safety and convenience of passengers by ferry boats by moving the Port Commissioners to take measures for the maintenance and construction, where necessary, of suitable landings on either side of the river free from all obstructions?

The Hon'ble Mr. INGLIS replied :—

"The Lieutenant-Governor has seen a letter which appeared in the Englishman newspaper on the 20th December, 1906.

"It is the case that some inconvenience has been caused to the public by the extension of the jetties.

"The Port Commissioners are, however, taking steps to minimise the inconvenience.

"The Commissioners are preparing landing-stages, in connection with their projected Steamer Ferry Service, which will be available for *dinghis* also. When these landing-stages are ready the public will be better served than has been the case in the past. It does not appear necessary at present to require the provision of additional landing-stages for the use of *dinghis* only."

"CORNER" IN RICE IN CALCUTTA.

The Hon'ble BABU RADHA CHARAN PAL asked :—

(*a*) Has the attention of the Government been drawn to the paragraph published in the *Bengalee* of the 15th instant last, which states that a "rumour is current all over the town that certain European mercantile firms in Calcutta are forming a 'corner' in rice in order to sell it to the people of Bengal at exhorbitant prices", and to the fact that, in spite of the fresh outturn of crop, the price of rice has again risen in Calcutta?

(*b*) Considering that the publication of this rumour has alarmed the public, will the Government be pleased to state whether there is any truth in this rumour?

The Hon'ble MR. CARLYLE replied: —

"Government has made careful inquiries regarding the rumour referred to. There is no truth in the rumour. It does not appear to be practicable to form a corner in rice in Calcutta, and there is no reason to believe that any firms have endeavoured to do so"

CASE OF SACHINDRA KUMAR BOSE.

The Hon'ble BABU RADHA CHARAN PAL asked :—

(*a*) Has the attention of the Government been drawn to the paragraph headed "A shocking tragedy," published in the *Bengalee* of the 16th instant last, which relates the death, under tragic and suspicious circumstances, of a young Hindu lad of respectable family, named Sachindra Kumar Bose?

(*b*) Will the Government kindly publish the police inquiry in regard to this case up till now?

The Hon'ble MR. CARLYLE replied :—

"The death of Sachindra Kumar Bose is still under investigation. The police inquiry, so far as it has proceeded, furnishes no ground for the belief that his death was due to foul play. It would not serve any useful purpose to publish an incomplete police inquiry."

COURT OF WARDS AND THE LATE RAJA ASHUTOSH NATH RAY, OF COSSIMBAZAR.

The Hon'ble BABU RADHA CHARAN PAL asked :—

Will the Government be pleased to state whether on account of the partition of Bengal the estate of the late Raja Ashutosh Nath Ray of Cossimbazar is to be managed by two Courts' of Wards, one at Calcutta and the other at Dacca?

The Hon'ble MR. CARLYLE replied:—

"The Court of Wards of both Provinces have taken over charge of the properties of the late Raja Ashutosh Nath Ray of Cossimbazar which lie within their respective jurisdictions. The fact of partition does not necessitate separate management; but it is very likely that this will be found more convenient. The question of management is still under the consideration of the Boards of both Provinces, and will be settled solely in view of the interests of the estate."

THE CHOTA NAGPUR TENANCY (AMENDMENT) BILL, 1907.

The Hon'ble MR. SLACKE moved that the Bill further to amend the Chota Nagpur Landlord and Tenant Procedure Act and the Chota Nagpur Commutation Act, 1897, be referred to a Select Committee consisting of the Hon'ble Mr. McIntosh, the Hon'ble Mr. Gordon, the Hon'ble Babu Jogendra Nath Mukherjee and the Mover.

The motion was put and agreed to.

THE BENGAL TENANCY (AMENDMENT) BILL, 1906.

The Hon'ble MR. CARLYLE said:—

"I have to propose that the Hon'ble Raja Ban Behari Kapur be re-nominated as a Member of the Select Committee on the Bill to amend the Bengal Tenancy Act, 1885, and I also have to propose that the following Hon'ble Members of the Council be added to the Select Committee: the Hon'ble Raja Pyari Mohan Mukharji, the Hon'ble Mr. Allen and the Hon'ble Babu Jogendra Nath Mukherjee. I do not propose to re-nominate the Nawab Bahadur of Murshidabad as he has asked to be excused from attending the Select Committee under circumstances which the Council will appreciate."

The motion was put and agreed to.

The Council was then adjourned to a date to be publicly notified hereafter.

NOTICES TO MARINERS.

THE following Notices are published for general information.

W. A. INGLIS,
Secy. to the Govt. of Bengal.

CALCUTTA, *the 2nd February 1907.*

BAY OF BENGAL—BURMA COAST.

Akyab harbour—Shoal water in Outer bar.

No. 44 (first publication).—With reference to Notice to Mariners No. 174, dated 18th May 1906, issued by this office, the Bombay Government have given further Notice (No. 6 of 1907) that the Surveyor in charge, Marine Survey of India, reports that after having made a re-survey of the Outer Bar, Akyab, it has been found that the water has shoaled in places to the extent of two feet.

There is, however, nowhere less than 21 feet, which 21 feet can be avoided by keeping well to the eastward and not passing the buoy too close.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 45 (first publication).—The following Notice to Mariners (No. 1 of 1907) issued by the British Admiralty is republished—

My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises, manœuvres or otherwise, to forbid all entrance to the naval ports at night, this is to give Notice that on approaching the shores of Great Britain, or any British dependency, if searchlights are observed to be in constant operation, the Naval harbours should be approached with great caution, as it may be apprehended that obstructions may exist outside the port, or that the entrances may be altogether closed, and the Examination service may be in force.

In the event of relations becoming strained between this country and any Naval Power, an Examination service may come into force at the ports or localities in the United Kingdom, and His Majesty's Possessions abroad, mentioned at the end of this Notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog they should on no account attempt to enter before receiving permission from the Examination officer.

The institution of an Examination service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign Powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night,

to keep a sharp look-out for the Examination steamer, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

If an entrance to a port is closed, three *red* vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination service is in force the Examination steamer will be distinguished at night—

(*a*) When the port is closed, by three red vertical lights.
(*b*) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

FINAL FORECAST OF THE SUGARCANE CROP OF BENGAL, 1906.

THE following is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 2nd February 1907.

DEPARTMENT OF AGRICULTURE, BENGAL.

FINAL FORECAST OF THE SUGARCANE CROP OF BENGAL, 1906.

[On an average of the five years ending 1904-05, the area under the sugarcane crop in the territory to which the forecast relates has represented some 19·02 per cent. of the total area under this crop in British India.]

Character of the season.—The planting season of the sugarcane crop usually extends from December to April. Rain was heavy and frequent in January and February, still conditions during the sowing season were on the whole favourable. May and the early portion of June were dry and the monsoon showers, which set in about the middle of

June, were rather in defect. In Bihar, where the bulk of the crop is cultivated, rain was very unequally distributed. In July and August, the rainfall was very heavy, especially in North Bihar, where the crop suffered from floods, while in September and October, when rain is not harmful to the crop, drought prevailed. In the rest of the Province, however, the rainfall was favourable to the crop.

2. *Area planted.*—The normal area under sugarcane in this Province is estimated at 429,500 acres and the actual area planted with the crop this year is reported to have been 423,500 acres against 421,600 acres sown last year.

3. *Outturn.*—Seven districts estimate an outturn of 100 per cent. and over, nine between 90 and 99 per cent., eight between 80 and 89 per cent., six between 70 and 79 per cent., and three between 60 and 69 per cent. Since the submission of the preliminary forecast, prospects have improved in 7 districts and deteriorated in 13 districts. According to the district returns, the outturn of the Province works out to 87 per cent. as against 92 per cent. shown in the preliminary forecast. The decrease is due to the unfavourable character of the weather that prevailed in Bihar since the preliminary forecast was issued. In several cases, the District Officers have not given sufficient reason for estimating less than a normal crop, and I would raise the total outturn to at least 90 per cent., of the normal. Taking the Provincial outturn at 90 per cent., the probable gross outturn of cane *gur* (at 22 cwts. per acre) comes to 8,385,300 cwts. against 8,533,200 cwts. of last year.

4. *Other sources of gur.*—The total quantity of *gur* obtained from the juice of the date-palm is reported as 1,559,679 cwts., and that from the palmyra palm, 62,039 cwts. The chief centre of the preparation of date-palm *gur* is Jessore, but some is also manufactured in Khulna, Nadia and the 24-Parganas.

Want of timely rainfall accounts for the low outturn and decrease in area as compared with the previous year. The weather was on the whole unfavourable.

The weather was good for the crop, but floods did some damage, hence the decrease in the outturn as compared with that shown in the preliminary forecast. The thana officers have reported figures for area sown this year after careful enquiry, hence the difference in the entry in column 7 as compared with that shown in the same column of the preliminary forecast.

The crop suffered slightly by the appearance of locusts in the Aurangabad Subdivision. The figure 95·4 as returned to this office is too low. From what I have seen in the District, I should say the crop was a good one. The figure 95·4 should be raised to 100 at least.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

☁, dew; o, overcast; d, drizzling rain.

No. 677.—The 7th February 1907.—The Lieutenant-Governor is pleased to appoint Dr. P. K. Ray to be a member of the Bethune College Committee, *vice* Mahamahopadhyaya Mahesh Chandra Nayaratna, resigned.

No. 653.—The 6th February 1907.—The following Resolution issued by the Government of India in the Department of Commerce and Industry is republished for general information.

T. W. RICHARDSON,
Secy. to the Govt. of Bengal.

No. 1028—1042-116, dated Calcutta, the 31st January 1907.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE Government of India have received from His Majesty's Secretary of State for India a copy of a Bill passed by the Parliament of Cape Colony to repeal the Immigration Act of 1902, extracts from which were published in the *Gazette of India* with Resolution No. 4-2—4, dated the 20th February 1903. The more important provisions of this law, which is entitled "The Immigration Act, 1906," are noted below for general information.

2. The most important change effected is that, whereas under the Act of 1902 Asiatics domiciled in South Africa were not included in the category of "prohibited immigrants," the present Bill exempts those persons only who are born in that country. Asiatics lawfully resident in the Colony are permitted, however, to be absent temporarily under permits issued under Regulations approved by the Governor.

3. The Governor-General in Council requests all Local Governments to take such measures as seem to them best calculated to make the provisions of the Bill generally known to natives of India, more especially in places from which emigration to Cape Colony is believed to be most common. Intending emigrants should be warned at the ports of embarkation of the difficulties they may encounter in proceeding to this Colony.

"2. In the construction of this Act the following expressions shall, unless the contrary intention appears, bear the meanings hereby respectively assigned to them, that is to say:—

'Ship' shall include any ship, vessel or boat or description thereof used in navigation.

'Master' shall include any person other than a pilot in charge or command of any ship.

'Immigrant' shall mean and include any person who arriving from without this Colony enters or claims to enter by land or sea.

"3. Subject to the provisions of this Act, it shall be unlawful for any immigrant who is or appears to be of any one of the following classes to enter this Colony by land or sea; and every such immigrant shall be termed a 'prohibited immigrant':—

(*a*) Any person who, when asked to do so by any duly authorized officer, shall be unable through deficient education to himself write out and sign in the characters of any European language an application to the satisfaction of the Minister: provided that for the purposes of this sub-section Yiddish shall be accepted as a European language.

(*b*) Any person who is not in possession of visible means of support or is likely to become a public charge.

* * * * * *

"4. The provisions of the preceding section shall not apply to any immigrant who is of any of the following classes:—

* * * * * * *

(*e*) The wife and any child under the age of 16 years of any person who is permitted to immigrate into the Colony under the provisions of this Act.

(*f*) (*a*) Persons born in South Africa.

(*b*) Persons of European birth domiciled in South Africa * *

* * * * * *

(*g*) Any Asiatic who having, when lawfully resident within the Colony, obtained from the Minister a permit issued under such Regulations as shall be proclaimed thereof by the Governor, authorising him to temporarily absent himself from the Colony, returns in accordance with the terms and conditions of such permit.

* * * * * *

"5. Any person found to have immigrated at any time into this Colony by land or sea in violation of the provisions of this Act or of 'The Immigration Act, 1902,' shall be liable to a penalty of £50 or in the alternative to three months' imprisonment with or

without hard labour, and to be removed at any time from within the limits of the Colony and to be detained in such custody as may by regulation be prescribed pending such removal.

"6. Any master of any ship who knowingly, directly or indirectly allows any immigrant to leave his ship, whereby such immigrant contravenes any provisions of the Act, and the owners of any such ship which any such immigrant so leaves shall be jointly and severally liable to a penalty of £100, and to a further penalty of £20 for each such immigrant landed in excess of the number of five. Such ship may be refused a clearance till such penalty has been paid, and may in default of payment by or on behalf of the master or owners and by order of the Supreme Court be attached and declared executable in satisfaction of any writ issued for the recovery of any such penalty, provided that in lieu of granting such order it shall be lawful for the Court to accept such security for the payment of such penalty as may appear to be adequate.

"7. Any person aiding or assisting any person in any manner whatsoever in the contravention of any provision of this Act, or of the regulations framed thereunder or making any false declaration in order to obtain for himself or another person any certificate or other recommendation for the purposes of this Act, or entering into any contract for the purposes of any evasion of the provisions of this Act, shall be liable to a fine not exceeding £100, or to imprisonment with or without hard labour for a period not exceeding six months.

"8. It shall be lawful for the Governor from time to time by Proclamation to make regulations in order to prevent any immigration into this Colony contrary to and in violation of the provisions of this Act, and to appoint officers within and beyond the limits of the Colony to carry out such regulations, and to provide for the removal from within the territorial limits of the Colony of any persons who are, under and by virtue of the provisions of this Act, prohibited from immigrating thereinto and settling therein, and to provide for the temporary custody, control and accommodation of such persons pending their removal as aforesaid, and to provide for the importation, reception, accommodation, maintenance, registration, distribution and contractual engagements of persons immigrating under any scheme approved by the Governor * * * * * *; and to provide for the issue of certificates and other documents under such regulations and the payment of fees therefor, and to provide for the passage of prohibited immigrants through the Colony or for their temporary residence therein and to provide for and prescribe the deposits of security for their journey through the Colony or leaving it within the period allowed to them, and generally in furtherance of the objects and intents of this Act.

"9. It shall be lawful for the Governor to prescribe penalties for the contravention of any regulation made by him under this Act, provided that no penalty in respect of any one contravention shall exceed a fine of £100, or in default of payment thereof, imprisonment with or without hard labour for a period exceeding 12 months, or to imprisonment with or without hard labour and without the option of a fine for a period exceeding 12 months.

"10. This Act may be cited as 'The Immigration Act, 1906'."

T. W. RICHARDSON,
Secy. to the Govt. of Bengal.

No. 1206—1220-2, dated Calcutta, the 6th February 1907.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

HIS MAJESTY'S Secretary of State for India has brought to the notice of the Government of India the fact that there is no prospect of employment for Indian labourers in New Caledonia, and that in the event of their destitution there is no likelihood of their being afforded relief by the Colonial Government.

2. The Governor-General in Council accordingly requests all Local Governments and Administrations to make the above intimation generally known, particularly in places from which emigration to New Caledonia is believed to be most common; and also to warn intending emigrants at the ports of embarkation of the risks they run in proceeding to that Colony.

115. On the day fixed in the summons for the defendant to appear and answer, the parties shall be in attendance in person or by their respective recognised agents or pleaders, at the Court-house before the Registrar If the plaintiff so attends, then, save as is otherwise specifically provided in Rules 116, 117 and 118 and in the provisos to this Rule, the suit shall after proof of service of the summons upon such defendants as do not attend or the withdrawal of the suit as against such absent defendants, forthwith be sent up to a Judge for hearing and, unless the hearing be adjourned by him to a future date, shall forthwith be heard by the Judge, who shall at the time of passing judgment make such order as he thinks fit with respect to the defendants, if any who do not attend and as against whom the suit has not been withdrawn or decreed by default.

Provided that in any such case the Registrar, at any time before such suit is sent up to a Judge for hearing may direct that it be set down on his own list or that of a Judge on a future date fixed by the Registrar or may enter a compromise, make a consent decree or allow the suit to be withdrawn as against all or any of the defendents and may grant leave to bring a fresh suit for the same cause of action.

Provided also that if the allegations contained in the plaint are sufficient and such documents, if any, as are mentioned in the plaint have been filed therewith or are produced before the Registrar at the time of his recording a decree by default, the Registrar shall, before sending the suit to a Judge for hearing, record a decree by default against every defendant served with the summons who fails so to attend and the plaintiff may obtain execution against every such defendant without prejudice to his right to proceed with the action against every other defendant.

116. If, on the day so fixed for the defendant to appear and answer, it be found that the summons has not been served upon him in consequence of the failure of the plaintiff to pay the Court-fee leviable for such service the Registrar may order that the suit be dismissed.

Provided that no such order shall be passed if on the day so fixed the defendant attends in person or by pleader or recognised agent.

117. If the plaintiff attends and the defendant does not attend, or, where there are several defendants, no defendant attends, and it is proved that the summons was duly served upon all the defendants or the plaintiff withdraws his suit as against those defendants upon whom the summons has not been duly served, the Registrar—

(*a*) if the allegations contained in the plaint are sufficient, shall record a decree by default against those defendants against whom the suit has not been withdrawn;

(*b*) if such allegations are not sufficient, either shall direct that the plaint be amended and a further summons be issued and served upon those defendants against whom the suit has not been withdrawn and that the hearing be adjourned to a future day fixed by him or shall send the case to a Judge for disposal.

Provided always that no decree by default shall be recorded under this rule upon a plaint wherein any documents are mentioned unless such documents have been filed in Court with the plaint or are produced before the Registrar at the time of his recording a decree by default.

This Rule and the second proviso to Rule 115 shall not apply to a defendant who is an infant or a person of unsound mind not so found by inquisition.

118 If the plaintiff attends and the defendant does not attend, or, when there are several defendants, all the defendants do not attend, and

(*a*) It is not proved that the summons has been duly served upon all the absent defendants, the Registrar may, if the plaintiff applies therefor, direct that a further summons be issued and served upon all or any of the defendants who have not been duly served, and that the hearing be adjourned to a future day fixed by him. If no such application is made and granted, the suit shall be dismissed as against such absent defendants and as against the other defendants shall be dealt with in the manner hereinbefore prescribed.

(*b*) It is proved that the summons was served upon all the defendants, but not in sufficient time to enable all of them to attend on the day fixed in the summons, the Registrar shall postpone the hearing of the suit to a future day to be fixed by him and shall direct notice of such day to be given to such short-served defendants.

If it is owing to the plaintiff's default that the summons was not served or was not served in sufficient time, the Registrar shall order him to pay the costs occasioned by such postponement

119. If, on the day to which the hearing of the suit is adjourned by the Court or Registrar, the parties or any of them fail to appear, the Court or the Registrar, as the case may be, may proceed to dispose of the suit in one of the modes hereinbefore directed or otherwise as to the Court or Registrar seems fit.

Provided that, if the Registrar has not power to make such order as to him seems proper, he shall send up the suit to a Judge for disposal.

120. Written statements shall be signed in the manner hereinbefore provided for signing plaints and no written statement shall be received unless it be so signed. Unless otherwise ordered by the Court or Registrar no written statement need be verified.

That the existing Rules 110 and 111 be renumbered respectively 121 and 122.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 45 (second publication).—The following Notice to Mariners (No. 1 of 1907) issued by the British Admiralty is republished—

My Lords Commissioners of the Admiralty, having taken into consideration the fact that circumstances may arise in which it may be necessary, on account of periodical exercises,

manœuvres or otherwise, to forbid all entrance to the naval ports at night, this is to give Notice that on approaching the shores of Great Britain, or any British dependency, if search-lights are observed to be in constant operation, the Naval harbours should be approached with great caution, as it may be apprehended that obstructions may exist outside the port, or that the entrances may be altogether closed, and the Examination service may be in force.

In the event of relations becoming strained between this country and any Naval Power, an Examination service may come into force at the ports or localities in the United Kingdom, and His Majesty's Possessions abroad, mentioned at the end of this Notice.

Masters are warned that before attempting to enter any of these ports they must, in their own interests, strictly obey all instructions given to them by the vessels which will be charged with the duty of examining ships desiring to enter the ports, and allotting positions in which the ships shall anchor. In case of fog they should on no account attempt to enter before receiving permission from the Examination officer.

The institution of an Examination service at any port will never be publicly advertised, but at all times when the relations of Great Britain with foreign Powers are known to be in a state of tension, especial care should be taken in approaching the ports, by day or by night, to keep a sharp look-out for the Examination steamer, and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun.

If an entrance to a port is closed, three *red* vertical lights by night, or three red balls by day, will be exhibited in some conspicuous position, in or near to its approach, and as far as possible notice of this fact will be given by look-out vessels in the offing.

If the Examination service is in force the Examination steamer will be distinguished at night—

(*a*) When the port is closed, by three red vertical lights.
(*b*) When the port is open, by three white vertical lights.

The pilots attached to the ports will be acquainted with the regulations to be followed.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1906-1907

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

REVENUE DEPT.;
The 8th February 1907.

DEPARTMENT OF AGRICULTURE, BENGAL.

FIRST FORECAST OF THE WHEAT CROP OF BENGAL, 1906-1907.

[On an average of five years ending 1904-1905, the area under wheat in the territory to which this forecast relates has represented some 5·0 per cent. of the total area under wheat in India.

The ratio of irrigated wheat acreage to total wheat acreage (a) in British India and (b) in the territory now reported on, has in the five years ending 1904-1905 averaged (a) 38·2 per cent. and (b) 2·4 per cent., respectively.]

Character of the season.—Wheat is grown chiefly in Bihar. Outside Bihar, the only important wheat-growing districts are Murshidabad and Nadia. There is practically no wheat grown in Orissa. Owing to the cessation of the monsoon rains early in October, the sowings were made at the normal

time; but drought has prevailed since, and the crop has suffered in most of the Bihar districts, especially in North Bihar. On the whole, the season has not been favourable.

2. *Area sown.*—Since the issue of the final forecast of the wheat crop for 1905-06, the District Officers of Burdwan, Midnapore, Gaya, Saran, Bhagalpur and Darjeeling have revised the normal area under the crop, which now stands at 1,300,700 acres. The actual area sown this year is shown as 1,323,900 acres, against 1,211,100, acres sown last year.

3. *Outturn.*—Not a single district returns a normal crop. Five districts return crops between 90 and 95 per cent., six districts between 80 and 89 per cent., and twelve districts between 70 and 79 per cent. Murshidabad returns a 67 per cent. crop, and the remaining five districts return 50 to 59 per cent. crops. According to the estimates of the District Officers, the outturn for the whole Province works out to 77 per cent. of a normal crop.

								Acres.			
24-Parganas ...	3,160,160	1,779,700	—	300	—	100	—	—	—	———	There has been no cultivation of wheat in this district this year.
Nadia ...	1,797,680	1,048,800	53,160	57,300	54,400	24	25	Not cadastrally surveyed		1st November	Sowing was normal. The condition of the crop is good, but rain is wanted. The increase in the area sown and outturn is owing to favourable rainfall at the time of sowing.
Murshidabad ...	1,571,680	946,360	129,960	99,900	69,900	23	27	—	—	Later part of October.	There was no rain in November and December, hence moisture is wanting in the soil. A normal outturn may be expected if it rains soon. The date of sowing was normal. The area sown this year was reported by the thana officers after proper enquiry, hence the difference between the area (by more guess) in the previous years and that shown this year. The normal area is under revision.
Jessore ...	1,272,600	1,121,800	1,700	1,600	1,300	83	36	—	—	1st November to 15th November.	The slight decrease in the outturn and the increase in the estimated area (Columns 6) require no explanation.
Patna ...	1,252,800	1,022,160	125,760	137,500	117,500	79	79	73,168	1900-01	Mid; in October	The short percentage of outturn is due to the failure of rain since the time of the sowing of the crop which was normal.

Gaya ...	3,015,800	2,307,400	167,000	112,300	165,900	75	85	514,800	1845 to 1850 and 1900 to 1904.	52,192	1st October	...	The weather was favourable throughout, but some rain is now wanted to further improve the condition of the crop. The general condition of the crop is good. The date of sowing was normal. I put the crop at 95, taking 100 as normal.
Shahabad ...	2,709,725	1,841,800	122,600	122,600	170,600	75	80	...	...	...	15th October ...	...	The prospects of the crop are fairly good at present. In Column 6, I have shown a considerable increase in area over the approximate normal area because it is certainly wrong, but the new figure is only approximate.
Saran ...	1,711,276	1,367,200	77,300	77,300	72,900	90	70	1,488,435	1855 to 1901	77,422	15th October ...	...	The areas in Columns 4 and 5 have been corrected according to the revised area under each crop submitted in reply to Circular No. 614, dated 28th March 1906. In the Gopalganj subdivision, the weather is reported favourable and the condition of the crop fair, but in the Sirsia and Siwan subdivisions, the crop has suffered in germination and growth for want of sufficient moisture—the result of failure of the cold-weather rain, and in some places it has suffered from insects as well. The date of sowing was normal.
Champaran ...	2,259,840	1,447,600	108,300	95,900	68,200	75	75	2,259,840	1873 to 1880	100,300	End of September and beginning of October.		Spring commenced rather early. Want of rain has reduced the prospects of the crops.
Muzaffarpur ...	1,962,457	1,857,600	69,700	69,700	68,700	80	70	1,962,400	1882-83 to 1888-89.	69,700	October.		
Darbhanga ...	2,152,600	1,678,600	82,700	67,500	69,200	84	84	2,142,600	1866 to 1905	82,700	October ...	...	Continued drought has injured the prospects of the crops to a great extent. Rain is urgently required. The increase in area is due to floods. The date of sowing was normal.
Monghyr ...	2,510,600	1,562,600	150,000	150,600	200,600	75	74	963,800	1900 to 1906	166,600	1st week of October ...		There was no rain after sowing, and no prospects are untowardly. The paddy lands of North Monghyr have been sown with rabi after the destruction of paddy by flood.
Bhagalpur ...	2,704,600	2,078,200	160,200	156,800	148,200	85	75	1,867,200	1882 to 1896	66,500	Last week of October		The abnormal increase of figures in Columns 4 to 6 is due to the revision of the normal area in the light of cadastral survey figures. The date of sowing was normal. Prospects are fair.
Purnea ...	3,156,153	1,604,400	24,000	23,200	55,600	100	75	Not available.			Middle of October ...		The season is not favourable for want of rain: temporarily 75 per cent. expected. The date of sowing was normal.
Darjeeling ...	744,000	140,800	4,200	3,000	3,200	75	80	128,200	1897 to 1906	1,711	Ditto ...	...	The weather has been favourable and sowing was normal.

GENERAL SUMMARY.—Rain was general during the week in Bihar and Chota Nagpur. Some scattered showers fell in Orissa, but in Lower Bengal there was practically no rain whatever. The rainfall was heavy in Patna, Gaya, Shahabad, Saran, Muzaffarpur, Monghyr, Bhagalpur and Palamau, where it is likely to do some damage to those *rabi* crops which are in flower or in ear. In those districts which received light rain, the crops are reported to have been benefited The number of persons receiving gratuitous relief is—Muzaffarpur 502, and Darbhanga 15,658. The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

REPORT ON THE COTTON CROPS OF BENGAL, FEBRUARY 1907.

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 15th February 1907.

DEPARTMENT OF AGRICULTURE, BENGAL.

REPORT ON THE COTTON CROPS OF BENGAL, FEBRUARY 1907.

[On an average of the five years ending 1904-05, the area under cotton crops in the territory to which the present forecast relates has represented some 0·6 per cent. of the total area under cotton crops in India.]

Explanatory.—This is the last of the four reports to be issued on the cotton crops of Bengal during the season 1906-07. It deals with revised estimates of area and outturn of the cotton crops since the issue of the third report in December.

Character of the season.—Early cotton is grown chiefly in the Santhal Parganas, Sambalpur, Angul, Manbhum and Singhbhum. Climatic conditions in these districts were generally favourable throughtout the season. In the district of Sambalpur, however, the crops were damaged to some extent by excessive rain during the flowering season.

Late cotton is mostly cultivated in North Bihar, Saran alone covering about one-third of the late cotton area in Bengal. Throughout North Bihar, the crops suffered at first from excessive rain and floods in July and August and afterwards from absence of rain.

Area sown.—The area sown with early cotton this year is estimated at 39,947 acres against 37,428 acres shown in the December forecast and against 35,086 acres sown last year. The area under late cotton amounts to 35,530 acres against 32,376 acres shown in the December forecast and against 36,356 acres sown with the crop last year. The sowing of late cotton is reported to be still going on in Puri, where it was begun late this year.

Outturn.—The outturn of early cotton, as returned by District Officers, is now estimated at 6,250 bales against 5,312 bales of last year, while that of late cotton is estimated at 9,780 bales against 11,150 bales of last year (one bale =400 lbs.). Supplementing these estimates with 5 per cent. for the cotton grown in the Native States, for which no statistics are recorded, the total estimates for early and late cotton come, respectively, to 6,562 and 10,269 bales, or a total outturn of 16,831 bales for the entire cotton area in this Province. The corresponding outturn for last year was estimated at 17,285 bales.

PRELIMINARY FORECAST OF THE OILSSED CROPS OF BENGAL, 1906-1907.

THE following note is published for general information.

R. W. CARLYLE,
Chief Secy. to the Govt. of Bengal.

The 9th February 1907.

DEPARTMENT OF AGRICULTURE, BENGAL.

PRELIMINARY FORECAST OF THE OILSEED CROPS OF BENGAL, 1906-1907.

[On an average of the five years ending 1904-05, the areas under linseed, rape and mustard and *til* in the territory to which this forecast relates have represented some 22·7, 13·4, and 5·9, per cent., respectively, of the total area under these crops in British India.]

Explanatory.—Preliminary estimates of the area and outturn of the different kinds of oilseeds, both *bhadvi* and *rabi*, grown in this Province are dealt with in this report. In Bengal, the chief oilseeds crops are mustard, rape (*rai*) sesamum (*til*), linseed, castor and *niger* oilseed (*sirguja*). About 35 per cent. of the total area under oilseeds is under mustard and rape, the major portion of which is cultivated in Purnea and in the Sonthal Parganas. Linseed covers about 32 per cent., and is chiefly grown in Darbhanga, Gaya, Champaran and Saran. *Til* is an important crop in Sambalpur, as well as in Midnapore, Jessore, Angul and Hazaribagh.

Character of the season.—In October, the rainfall was above the normal in the Sonthal Parganas, Sambalpur, Cuttack, Puri, Ranchi, Manbhum and in all the districts of Lower Bengal except Khulna. In the rest of the Province, it was deficient. In November, there was no rain in the districts of the Patna Division and in Purnea, but some light showers fell in the rest of the Province. In December, light showers fell only in Orissa and in parts of Chota Nagpur. There was practically no rain in January. The date of sowing was normal almost everywhere, but the crops suffered in Lower Bengal from excess of rain at the time of sowing and in Bihar from rain holding off at the period of early growth. Injury done by insect-pests is reported only from Cuttack. On the whole, the season has not been a favourable one.

Area sown.—The District Officers of Burdwan, Midnapore, Howrah, 24-Parganas, Khulna, Gaya, Saran, Bhagalpur, Darjeeling, Puri and Sambalpur have now furnished revised figures of the approximate normal area under oilseeds in their districts. The total normal area under different

oilseed crops in the Province, as estimated now, stands at 2,416,400 acres. The actual area sown this year amounts to 2,209,500 acres, against 2,215,400 acres estimated to have been sown last year.

Character of the crop.—As will appear from the district returns appended to this forecast, Sambalpur expects an 105 per cent. crop. Three districts, viz., Bankura, Gaya and the Sonthal Parganas, report a normal crop, three districts return from 90 to 92 per cent., five districts from 81 to 89 per cent., eleven districts from 70 to 79 per cent. and five districts from 63 to 69 per cent.; while Darbhanga, Monghyr, Darjeeling, Puri and Jessore report crops from 53 to 59 per cent. of a normal crop. According to the district estimates, the general outturn of the different kinds of oilseeds grown in this Province amounts to 78 per cent. of an average crop.

In the following districts, sufficient reason has scarcely been given for the low estimates of outturn :—Birbhum. Nadia, Murshidabad, Jessore, Puri, Palamau and Singhbhum. The Collectors will be asked to look into the figures carefully, when submitting their final forecasts. The recent rain, which fell since the preparation of the preliminary forecasts must have affected the outturn in many districts.

Director of Agriculture, Bengal.

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF JANUARY 1907.

JANUARY was characterised by a general deficiency of rainfall, every one of the meteorological divisions in the two Provinces receiving less than the small amount to be expected during this month. At the end of the preceding month the weather had been slightly affected by the approach of a disturbance from Gujarat. As a consequence of this, cloud spread over the whole area and a large increase of night temperatures took place. Skies, however, soon cleared, temperature fell and about the 3rd of the month was normal everywhere. The weather remained fairly settled for a few days, when the approach of another low pressure area from the west caused cloud again to appear and gave rise to a slight increase of temperature. From the 10th to the 17th skies were clear or only lightly clouded, except in Assam where fog was prevalent in the mornings. Temperature was in excess during the first half of this period, but the low temperature conditions prevailing in the Central Provinces extended into the area under report on the 14th, and temperature was in defect in the west for the remainder. In the Bay weather was slightly disturbed in the neighbourhood of the Andamans, and moderately heavy rain was reported from there. Weather remained fairly settled till the 24th of the month, when a depression in which pressure was one quarter of an inch in defect appeared over northern India and completely reversed the pressure gradients. This distribution gave rise to an inflow of humid winds from the Bay, and general increase of cloud. During the remainder of the month southerly winds prevailed at the head of the Bay. Precipitation was, however, very scanty, and the skies were mostly clear except in Assam, where skies were heavily clouded, and rain fell nearly every day. Temperature was generally high, except in Assam, where rain caused a reduction in day temperatures and cloud an increase in night temperature.

Summary of Temperature.—Mean temperature was in moderate excess in Eastern Bengal and Bihar and in slight excess elsewhere except in Orissa, where it was about normal. The highest temperature recorded during the month was 92°·4 at Cuttack and the lowest 39·5 at Daltonganj.

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of January 1907:—

Summary of Rainfall.—The rainfall work of the Province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that Officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province. No rain was recorded in Lower Bengal during the month, and light showers only fell at a few stations elsewhere.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

≏, dew; o, overcast; <, lightning; d, drizzling rain; t, thunder.

VI. Subject to the provisions hereinbefore contained and subject to the right of objection contained in section 278 of the Code of Criminal Procedure, 1898, any person whose name shall be on the Jury List then in force shall be qualified and liable to serve as a Juror as aforesaid.

Persons whose names are on the Jury List liable to serve subject to objection.

VII. On some day not less than two weeks before the commencement of each Session, one of the Judges of the High Court shall cause to be made out lists of the persons to be summoned as Special and Common Jurors respectively for such Session. The list of Special Jurors shall contain the names of not less than twenty-seven and the list of Common Jurors the names of not less than fifty-four persons of those respectively included in the list of Special and Common Jurors. The list shall be respectively called 'The Special Jurors' List' and 'The Common Jurors' List' for the particular Session, designating it by the date on which it is to commence, and shall be prepared as follows :—

List of Special and Common Jurors to be summoned for each Session when and by whom to be prepared, and number of names to be contained therein.

(1) The names of all persons, if any, ordered to be entered in the list of Special Jurors for such Session under Rule VIII, XI or XVI shall be first entered in the said list, unless the Judge shall be satisfied as regards any one or more of such persons that he or they will be unable, from illness or other sufficient cause, to attend at such Session, in which case the name of such person may be set aside in the same manner as it might have been set aside under Rule VIII if the name had been drawn by lot for such Session. The Judge shall then cause to be drawn by lot the names of such a number of persons qualified and liable to serve on Special Juries as, with those already on the list, will subject to the provisions of these rules, make up double the number of persons required for the trial of the cases committed to such Sessions triable under the provisions of section 276 of the Code of Criminal Procedure by Special Jurors, and the names of such persons shall be entered upon and form the list of Special Jurors liable to serve and to be summoned as Special Jurors for such Session.

List of Special Jurors how prepared.

(2) In like manner the names of all persons, if any, ordered to be entered in the Common Jurors' list for such Session under rule VIII, XI or XVI, shall be first entered in the said list, unless the Judge shall be satisfied as regards any of them that such person will be unable, from illness or other sufficient cause, to attend at such Session, in which case the name of such person may be set aside in the same manner as it might have been set aside under Rule VIII, if his name had been drawn by lot for that Session. The Judge shall then cause to be drawn by lot the names of such a number of persons qualified and liable to serve on Common Juries as, with the names already on the list, will subject to the provisions of these rules, make up double the number of persons required for the trial of the cases committed to such Sessions not triable by Special Juries, and the names of such persons shall be

entered upon and form the list of Common Jurors liable to serve and to be summoned as Common Jurors for such Session.

Mode of proceedings to draw the names of the Special and Common Jurors to be summoned.

VIII. The mode of proceedings to draw the names of such Special and Common Jurors, respectively, shall be as follows:—

The names of all the Jurors in the list of Special and Common Jurors, respectively, prepared by the Clerk of the Crown, shall be numbered consecutively. The number attached in the list of Special Jurors to the name of each Juror liable to be summoned as a Special Juror for the Session for which the list of Special Jurors is to be prepared shall be written on a bone or ivory counter, the several counters being all, as nearly as may be, of equal size and shape, and such counters shall be put together by the Clerk of the Crown into a box, and on the day to be fixed for drawing the names of the Jurors the Clerk of the Crown shall, in open Court, draw, or cause to be drawn, the said counters one after the other until the requisite number of Special Jurors shall be obtained. The Juror on the Special Jurors' list, whose number on such list shall correspond with the number drawn, shall, subject to the provision in these rules, be entered in the Special Jurors' List for the Session, and a number denoting the order in which the name of each Juror is so drawn shall be set against the name of such Juror in the Special Jury List for the Session.

A similar course, *mutatis mutandis* shall be adopted in drawing the names of the Common Jurors.

Names of deceased person or persons not liable to serve or excused from service to be set aside.

Names of persons excused from service to be entered in list for future service.

The Judge may order the name of any person who has actually served as a Juror in the preceding year and of any person known or believed to be dead, absent from Calcutta, or likely to be unable from illness or otherwise to attend, or known or believed not to be qualified or liable to serve as a Juror under this rule, to be set aside; and, in every such case, an additional name shall be drawn in lieu of that so set aside, and the Judge, if he think fit, may order the name of any person so set aside, except on account of death or disqualification, to be entered on the list of Special and Common Jurors, as the case may be, for any subsequent Session to be then fixed.

Order in which names to be arranged in lists with additions and place of abode.

IX. The names and places of abode of the several persons included in such Special and Common Jurors' Lists for the Session shall be written therein and numbered in the order in which they shall have been drawn, and such lists shall be signed by the Judge.

Copy of lists to be annexed to Precept to Sheriff to summon Special Jurors in numerical order.

X. A copy of such lists shall be annexed to a Precept to the Sheriff, commanding him to summon such Special and Common Jurors, on the dates on which their attendance is likely to be required. Special Jurors may be required to attend on the dates notified to them by advertisement published in any public newspaper.

Name of Juror excused attending at one Session, on condition of his serving at a subsequent Session, to be inserted in the list for such Session.

XI. Any person whose name is included in the Special or Common Jurors' List for any Session may apply to the Clerk of the Crown to cause him to be excused from attendance as a Juror either generally or at the particular Session. Such application shall be made at least three days before the day fixed for the commencement of the Session, and shall specify the grounds upon which the application is made. The Clerk of the Crown shall, as soon as possible after the last day allowed for making such application, bring them before one of the Judges of the Court, and such Judge shall pass orders thereupon, which shall be communicated by the Clerk of the Crown to the respective applicants. If the Judge shall think fit to excuse any of the applicants from attendance at the particular Session, he may do so unconditionally, or on condition of his serving at the next or some subsequent Session to be fixed, and any such conditional order shall operate as an authority to the Clerk of the Crown to include the name of such person in the list for such subsequent Session under the provisions of Rule VI.

Jurors to be summoned three days before the first day of the Session.

XII. Every person named in the lists mentioned in Rule IX shall forthwith, or as soon as possible after the receipt of the Precept by the Sheriff, be summoned by him to attend at the Session for which he shall have been appointed to serve as a Juror, and on the date mentioned in the list for his attendance, and such summons shall be served at least seven days before the dates on which their attendance is required.

Service of summons or process by post.

XIII. A summons to a Juror who resides out of the limits of the Town of Calcutta, and to whom access at his office or place of business within such limits is denied to the Sheriff's Officer, as also all notices, orders, or other proceedings required to be served on him, shall, unless otherwise ordered, be addressed to him at his office or place of business aforesaid, or at his place of residence, and forwarded to him by post duly registered. The transmission by post as aforesaid of every such summons, or notice or of a copy authenticated by the seal of the Court, of every such order or other proceeding, shall, unless good cause be shown to the contrary, be deemed sufficient service thereof.

XIV. In all other cases every such summons, notice, order, or other proceeding shall, unless otherwise ordered, be served on a Juror personally.

Personally.

XV. The Sheriff shall, as soon as possible after service of the summons, and not later than three days before the commencement of the Session, return the Precept to the Clerk of the Crown, with two panels annexed thereto—one of the Special Jurors and one of the Common Jurors, which panels shall show in a tabular form the names of the persons summoned and the particulars of service upon each; and if any person or persons named in the lists annexed to the Precept shall not have been served, the panel shall state that fact, and the reason why such person or persons has or have not been summoned, and in every case the reason why such service has not been effected shall be verified by the affidavit of the Officer whose duty it was to effect such service, and such affidavit shall be filed with the Clerk of the Crown, with the return to the Precept.

Sheriff to return Precept with two panels, one of Special Jurors, the other of Common Jurors, showing in tabular form names and particulars of service, and accounting for non-service.

XVI. On the receipt of such return the Clerk of the Crown shall, without delay, bring the same before one of the Judges of the Court. The said Judge may, if necessary, examine the Sheriff's Officer or Officers as to the truth of such return, and as to the circumstances of the service or of the absence of service on any person, and may direct service to be made upon the person or persons not already served in such manner as to him shall seem fit. The Judge, if he think fit, may cause the name of any person returned by the Sheriff as not summoned to be entered on the list of Jurors, either Special or Common, as the case may be, for any subsequent Session to be fixed by the Judge.

Sheriff's return to be immediately laid before a Judge for orders.

XVII. If the Judge shall be of opinion that the number of Jurors named in either of the said lists who shall have been served is not likely to be sufficient, he may cause to be drawn by lot, in the mode provided by Rule VIII, such further number of names as may be requisite.

If sufficient number of Jurors not served, further names of Jurors to be drawn by lot, as provided by Rule VIII.

XVIII. Such lists shall be called the Supplemental Lists of Special or Common Jurors, as the case may be, and shall be prepared and signed in the manner hereinbefore provided with respect to the original lists, and copies thereof shall be sent to the Sheriff with an additional Precept, and the Sheriff shall, as soon as possible after the receipt of such additional Precept, cause the persons named therein to be summoned to attend at the Session, and shall return the Precept to the Court not later than one clear day before the dates on which the attendance of these Jurors is required with a panel similar to that provided by Rule XV in respect of the original lists and Precept.

Copy of Supplementary Lists to be annexed to additional Precept to Sheriff. Sheriff's return.

XIX. In order to nominate a Jury for the trial of any prisoner or other person to be tried by Jury, the Clerk of the Crown shall cause to be put together into one box cards or pieces of parchment containing the names of all the persons summoned to serve on the Common Jury for the Session, if the trial is to take place before a Common Jury, or on the Special Jury, if the trial is to take place before a Special Jury, except such of the said persons as shall have been excused by the Judge from serving on that day in consequence of his having served as a Juror on the previous day, or for any other cause. Such cards or pieces of parchment shall be, as nearly as may be, of equal size, and each shall bear the name of one person summoned to serve on the Jury for that Session. The Clerk of the Crown shall then in open Court draw or cause to be drawn out of the said box nine of the said cards or pieces of parchment, one after another; and if any of the Jurors whose name shall be so drawn shall not appear, then such further number shall be drawn till nine Jurors shall appear. The prisoner or person to be tried shall be informed that, if he desires to object to any Juror, he must make his objection before the Juror is sworn. The names of the Jurors shall then be called aloud; and if, upon any challenge or objection either by the Government or the party to be tried, or for any other lawful cause, any Juror is not allowed to serve, or is exempted from serving, the Clerk of the Crown shall draw out another card or piece of parchment from the said box, and so on, until nine Jurors shall have been drawn who shall be allowed to serve.

Jury how to be drawn and empanelled.

XX. If, by reason of absence, or disallowance on challenge, or any other cause, there be a deficiency of Jurors, the Court may command the Sheriff, or other officer, to name or summon a sufficient number of persons to make up a full Jury, and the Sheriff or other officer shall, at such command of the Court, return such men duly qualified to serve as shall be then present, or can be found to serve on such Jury, and the course of proceeding shall be the same as if their names had been returned in the panel and drawn by ballot under Rule XIX: provided that in case of a Special Jury, the additional Jurors may be taken from the list of Common Jurors summoned to serve at the same Session if a sufficient number of Jurors qualified to serve as Special Jurors shall not be present in Court.

Proceedings in case of deficient Jurors.

After every Session entry to be made against the name of each non-defaulting Juror.

XXI. After each Session the Clerk of the Crown shall make an entry in the List of Jurors opposite the names of those who shall have served at such Session or shall have been summoned to serve at such Session and shall not have made default, together with the date of service, or of the Session for which he shall have been summoned to serve.

XXIA. On the conclusion of any trial, whether tried by a Special or Common Jury, the Presiding Judge may direct that the persons who have served as Jurors at such trial shall be exempted from service as Jurors for the period of not more than two years, and the names of the persons so exempted shall not be entered on the Lists of Special and Common Juries for any Sessions during such period, unless Juries for the trial of cases committed to the Sessions during such period cannot be made up without them.

Only persons on Common Jury List eligible to serve on Coroner's inquest, and except in case of necessity, no Juror to be summoned again within twelve months.

XXII. No person shall be summoned to serve upon any inquest before a Coroner unless he is on the Common Jury List, nor, except in the case of necessity, within the period of twelve months after he shall have served on a Coroner's inquest or shall have been summoned to serve on a Coroner's inquest, and shall not have made default. The Coroner shall keep a copy of the Common Jury List, and shall enter therein the names of the persons who shall have served or been summoned to serve and not made default, and the date of the inquest at which such Juror shall have served or for which he shall have been summoned to serve.
